Commenter Type:

Stance: Customer made comments in support of the Planning Application

Comment Reasons:

Comment: I am writing as a long standing resident of this community to express my support for application DM2025/01591 which proposes the establishment of a much needed community centre within my neighbourhood. This proposal will make a difference to me and my mum.

My mum and I currently attend BASMA at its existing location, particularly Friday prayer. I have consistently been impressed by how responsibly and how thoughtfully it is managed. Prayer times are staggered to prevent overcrowding, services are very organised and there are no noticeable issues with disruption. In my experience BASMA make clear efforts to minimise impact in the surrounding area.

The proposed location with improved accessibility would make the attendance easier for me and my mum.

For my mum and I this development is about for more than convenience having access to a local place for prayer provides a sense of belonging which is important to my mum and I. I would therefore recommend that Sutton Council approve this application.
