Comment: Comment in Support of Planning Application DM2025/01591

I am a local resident and have lived in the area for 15 years. I wish to express my full support for planning application DM2025/01591.

The proposed centre will be a positive and much needed addition to the local community. My family and I will benefit from being able to walk to a space that offers inclusive and diverse activities open to all faiths and backgrounds. This will support my wellbeing by providing opportunities to socialise locally and strengthen community connections. My children will also gain valuable educational and faith based learning opportunities.

I welcome the centre's intention to carry out charity work that will support both the immediate area and the wider community.

The design of the building is modest and in keeping with the surrounding landscape. The inclusion of on site parking (12 spaces plus 2 accessible spaces) is thoughtful and practical. As a keen cyclist, I am pleased to see cycle racks included, which will benefit both my family and local cycling groups. Importantly, the proposal still preserves green space, enhancing the appearance of the area.

It is considerate that the application includes staggered Friday prayer times, demonstrating awareness of local residents and helping to minimise any potential impact.

I do not believe traffic, parking, or noise will be an issue. Most attendees live within walking distance and are respectful and mindful of their neighbours.

For these reasons, I strongly support this application and encourage its approval. The project will enrich the lives of those who attend and contribute positively to the wider local community.
