Commenter Type:

Stance: Customer objects to the Planning Application

Comment Reasons:

Comment: Our area is primarily designated as a quiet residential zone. Many residents chose to live here because of its peaceful environment, low traffic volume, and limited commercial or institutional activity. The establishment of a place of worship, while respected in principle, may significantly increase traffic congestion, parking shortages, noise levels during prayer times and gatherings, and overall disruption to the residential character of the community.

My objection is not based on religion or belief, but rather on urban planning considerations and the suitability of this type of development within a residential setting. I respectfully request that the authorities carefully assess zoning regulations, infrastructure capacity, traffic impact, parking provisions, and the broader implications for neighborhood residents before granting any approval.

Many Thanks

Aguilane
