Commenter Type:

Stance: Customer made comments in support of the Planning Application

Comment Reasons:

Comment: As a multigenerational family living within walking distance to the current site, our family will greatly benefit from the proposed multifunctional mixed use Community Hub and Place of Worship.

The Community Hub will be welcomed as a much needed site for youth activities, elderly social drop-in sessions as well as interfaith coffee mornings. These will encourage well-being and social cohesion in the local community.

The Community Hub will be a flexible, accessible community space open to all in the community which will undoubtedly meet the needs of many local families.

I understand that the lunchtime Friday prayer sessions will have staggered timings thereby reducing traffic congestion and not conflict with the local school run. However, as many families (such as ours) will be within walking distance to the site; traffic congestion and parking should not really be an issue.

The presence of a Community Hub and Prayer Hall can only benefit the local community and we respectfully request the application to be supported by the council as a positive response to local community needs.
