Comment: REF: I strongly Support for Planning Application DM2025/01591 - A Walkable Community Hub for Sutton

Dear Sir/Madam,

I am writing as a local young resident to express my full support for Planning Application DM2025/01591. As someone who lives in the immediate area, I can confirm that this proposal meets a deep and currently unaddressed local need.

The most compelling aspect of this application is its hyper-local focus. A significant number of those who will benefit from this space—including myself and my neighbors—live within easy walkable distance. By providing a spiritual and community hub right where people live, the proposal naturally reduces the need for car travel, supporting the Council's own green initiatives and keeping our local streets quiet.

I am particularly excited about the vision for a Youth Community Group hosted at this site. Our local Gen Z generation is in desperate need of a safe, inclusive space for:

Economic Opportunity: Hosting local job fairs and mentorship programs to help young people into the workforce.

Wellbeing & Inclusion: Providing a "third space" for mental health support and social connection, specifically for young women and marginalized groups.

Multi-Faith Synergy: I highly value that this space will be offered for multi-faith use. This openness transforms the site from a private facility into a true community asset that fosters harmony among all Sutton residents.

From a planning standpoint, the application is exceptionally responsible:

Transport & Traffic: Because the primary users are local and will arrive on foot, the 14 on-site parking spaces are more than sufficient. The proactive decision to stagger Friday prayers to avoid school-run times further proves the applicant's commitment to being a "good neighbor."

Scale & Character: The building remains modest and maintains existing greenery, ensuring it blends seamlessly into our residential environment.

This proposal is a low-intensity, high-value project that directly serves the people living right next to it. It is a sustainable, walkable, and inclusive solution for a generation in need. I strongly urge the Council to approve this application.

Yours faithfully, Ayraf
