Comment Reasons:

Comment: I urge the Planning Committee to approve application DM2025/01591. As a local resident, I see this centre as a vital consolidation of existing community activity, not a generator of new, external traffic. By serving local families mostly "after" existing school-run routines, it promotes freedom of worship, religious expression, community harmony and inclusivity by servicing all people in the community with health & well-being projects as a community hub. Also Having reviewed the plans, I am confident the scale and design are proportionate and harmonious with the surrounding residential area. I recommend the Planning Committee to approve this valuable community asset as the project offers immense value for local cohesion. It is a well-considered project that fits seamlessly into our community.
