Comment Details

Commenter Type:

Stance: Customer made comments in support of the Planning Application

Comment Reasons:

Comment: I am writing to express my strong support for the proposed community centre (DM2025/01591), which I believe aligns perfectly with good planning principles.

Addressing concerns about parking and school runs and noise pollution or disturbance, I believe the planning has sufficient details that highlights the understanding of those concerns and keeping that in mind the community hub seeks to respect and crowd control accordingly with all programmes predominantly arranged after peak traffic hours. The facility acts as a local hub for existing residents. The proposal demonstrates high-quality, contextual design that respects the local character as well. By approving this, the council will be enabling a project that promotes & enhances community health and harmony, and provides a necessary asset for our neighbourhood.
