Comment Reasons:

Comment: I am seriously concerned and worried about the former ambulance station being turned into a place of worship / community hub. As someone who has lived in Balmoral Way for 15 years, I have witnessed first hand the overwhelming parking situation during the morning, lunch time and pickup time due to The Avenue primary school where it can take 15-20 minutes to get out of the road properly with the congestion from traffic. There is already a lack of suitable parking for The Avenue school and parents (understandably) park all alongside Balmoral Way throughout the day. Having a place of worship / community hub with multiple services / congregations throughout the day would cause a severe issue with primary school drop offs / pick ups and the general congestion in the surrounding area. The application is also not in line with the Sutton Plan 2031 and the Mayor of London's London plan, and we note that there is an underestimation of required parking spaces at the site (only 11) vs expected visitors of min. 69 people (and presumably it could be even more than that at any point in time) for each service / visit at this proposed community centre / worship hub.

We are seriously worried about the effects on the local community and the primary school which is at the heart of our community. There is simply not enough space around this ambulance station, when the road is a two-way system with cars parked already on either side, particularly during Monday-Friday when children are in school.
