Comment Reasons:

Comment: I am writing to formally express my strong support for planning application DM2025/01591.

As a doctor who has lived and worked in Sutton for many years, I have had the privilege of serving local families across generations. Through both my professional work and personal life in the borough, I have seen first-hand how important accessible community spaces are to the health and wellbeing of residents.

In my view, this proposal represents a positive and meaningful investment in the local community. The provision of a dedicated community facility will support not only faith-based activities but also wider social, educational and wellbeing initiatives. Community centres play an important preventative role in public health. They reduce social isolation, provide structured activities for young people, offer informal support networks for families, and create safe environments for constructive engagement. These factors are closely linked to improved mental health outcomes, stronger family cohesion and greater social stability.

From my understanding of the area, the proposal appears proportionate in scale and appropriate to its surroundings. It would provide improved facilities within walking distance for many residents, encouraging more sustainable travel patterns and reducing unnecessary reliance on private vehicles. Importantly, the development would formalise and enhance community activity that already exists within Sutton, allowing it to operate in a more suitable and organised setting.

Having lived in Sutton for many years, I care deeply about maintaining the character, safety and

harmony of the area. I would not support a proposal that I believed would undermine those values. On the contrary, I believe this application aligns with the principles of community-focused development and would contribute positively to local life.

For these reasons, I respectfully urge Sutton Council to approve planning application DM2025/01591.
