Stance: Customer made comments in support of the Planning Application

Comment Reasons:

Comment: I am writing to formally support planning application DM2025/01591 and to encourage the Council to look positively upon this proposal.

For the past three years, members of this congregation have already been praying and gathering locally on a regular basis. During that time, these activities have taken place with minimal complaints and without any significant disruption to neighbouring residents. This sustained period of responsible operation provides reassurance that the community understands its obligations and conducts itself respectfully within a residential environment.

The proposed community centre would provide a more appropriate and structured setting for activities that are already taking place. Rather than creating something new in principle, it formalises and improves an established presence, allowing gatherings to occur in a facility designed to accommodate them properly. This brings greater organisation, clearer management and long-term stability.

As a doctor who has lived in Sutton for many years, I have seen how important strong community networks are to overall wellbeing. In my professional experience, spaces that encourage positive engagement, mutual support and structured activities contribute meaningfully to mental health, social cohesion and family resilience. Accessible local facilities help reduce isolation and provide constructive outlets for young people and families.

In my view, the proposal is proportionate and suitable for the area. It supports genuine local needs while remaining consistent with the character of the neighbourhood. Having been part of this

borough for many years, I would not support an application that I believed would negatively affect the community. On the contrary, I believe this development would enhance it by providing a stable and beneficial focal point for residents.

For these reasons, I respectfully request that Sutton Council approves planning application DM2025/01591.
