Stance: Customer objects to the Planning Application

Comment Reasons:

Comment: I wish to formally object to the proposed development due to the significant and disproportionate impact it is likely to have on our immediate residential community. The projected increase in traffic-potentially 70-80 additional vehicles during peak overlap-poses serious road safety concerns, particularly given the proximity of Avenue Primary Academy and its pupils, where congestion already affects visibility and safe drop-off and pick-up for our children. As a nearby resident, I already experience difficulty accessing and parking near my home at busy times, and the addition of this level of traffic would materially affect my ability to safely enter and exit my property and go about daily routines without delay or obstruction.

The late-night dispersal of attendees to this place of worship would inevitably result in noise, engines idling, car doors slamming, and vehicles circling for parking, causing disturbance to families, elderly neighbours, and especially residents of the nearby care home; this would directly affect my household's ability to enjoy reasonable peace and quiet in the evenings. Furthermore, the scale and height of the proposed extensions would be visually overbearing and wholly out of character with the surrounding domestic properties, fundamentally altering the residential nature and outlook of the area in which I live.
