Commenter Type:

Stance: Customer objects to the Planning Application

Comment Reasons:

Comment: I object to planning application DM2025/01591.

The proposal would cause unacceptable harm to highway safety, parking stress, and residential amenity in an already constrained residential area, particularly during school drop-off/pick-up times and evening peak hours.

Highway safety and school-run concerns

This area is a school-run environment with high pedestrian activity, including children, parents, and elderly residents. During peak times, Dorset Road and surrounding streets already experience heavy traffic congestion and limited visibility.

Any increase in visitors, drop-offs, servicing vehicles, or circulating traffic linked to a community hub and place of worship would significantly increase risk to pedestrians, especially children.

I regularly experience:

Heavy parking and double parking during school drop-off and pick-up times

Vehicles stopping suddenly or mounting pavements

Reduced visibility at junctions due to parked cars

An intensification of use at this site would worsen these conditions and create an unsafe environment.

Parking stress

On-street parking in the area is already under severe pressure. Residents frequently struggle to park near their homes, especially in the evenings.

The proposal does not adequately demonstrate how additional parking demand from visitors, events, or peak-time use would be managed without overspill into surrounding residential streets. This would lead to:

Increased congestion

Obstruction of driveways

Reduced access for emergency and service vehicles

Impact on residential amenity

The change of use would introduce higher levels of activity, noise, and disturbance in what is primarily a residential area. Increased footfall, vehicle movements, and evening use would negatively affect the quiet enjoyment of nearby homes.

Conclusion

For the reasons above, I ask Sutton Council to refuse planning application DM2025/01591 due to its unacceptable impact on:

Highway safety

Parking stress

Residential amenity

particularly in a sensitive school-run and residential environment.

Thanks & regards,
Randeep
