Address: Flat 6 Bridge House Bridge Road Sutton SM2 6NE

Comment Details

Commenter Type:

Stance: Customer objects to the Planning Application

Comment Reasons:

Comment: The proposed development is located in close proximity to a school. This area already experiences significant congestion during school drop-off and pick-up times. The introduction of a Place of Worship and Community Hub is likely to:

Generate high volumes of traffic at peak times, including evenings and weekends.

Result in additional on-street parking pressures.

Increase the risk of unsafe parking (double parking, pavement parking, obstruction of visibility splays).

Compromise pedestrian safety, particularly for school children and parents.

Unlike the former ambulance station use, which operated in a controlled and professional capacity, a Place of Worship and Community Hub could attract large gatherings at specific times, leading to concentrated surges in traffic that the surrounding highway network is not designed to accommodate.

This intensification of use is likely to conflict with highway safety policies within the Local Plan and the National Planning Policy Framework (NPPF), which seek to ensure safe and suitable access for all users.
