Commenter Type:

Stance: Customer objects to the Planning Application

Comment Reasons:

Comment: Our community is designated as a residential zone intended to provide a peaceful, low-traffic, and safe living environment. The proposed development is likely to increase traffic congestion, parking shortages, and noise levels, particularly during prayer times, events, and large gatherings.

Additionally, there is a school and an elderly care home located nearby. Increased traffic, congestion, and crowd movement may create safety concerns for children and senior citizens. We are also concerned about potential environmental impacts, including increased noise, air pollution from vehicle traffic, and strain on local infrastructure.

Our objection is based solely on planning, zoning, environmental, and community impact considerations-not on religious or community grounds. We respectfully request that the relevant authorities reconsider this proposal and explore alternative locations better suited for such a facility.

We urge decision-makers to prioritize the safety, well-being, and residential character of our community.
