Stance: Customer made comments in support of the Planning Application

Comment Reasons:

Comment: I am a local resident who moved to the area relatively recently, and I support this application.

When I first moved here, I did not know anyone locally. Through BASMA and the weekly Friday prayers, I was able to connect socially very quickly and feel part of the community. This has been very important for me and my family.

I am also a parent of 4 children. 3 of them study at Avenue Primary School. I can do the school run both by car and on foot, and I have not experienced problems finding parking. The morning period is naturally the busiest for traffic due to school and work travel, but there are no prayers at that time, so the proposed centre would not add pressure then.

In the afternoons, traffic is generally lighter as children do not all leave at once. Many stay for after-school clubs or childcare, and congestion, parking and noise are never as intense as the morning peak. From my experience, buses run normally and on time, and I have not seen disruption to traffic flow.

The current Friday prayers have been managed by BASMA calmly and respectfully for several years. Most activity takes place indoors, people arrive and leave in a short and orderly way, and I have not experienced noise or disturbance.

Most attendees are local residents, many arriving on foot, and the proposed site is an improvement on the current temporary arrangement as it is better suited and has its own parking.

BASMA has been a positive and responsible part of the local community for years.

I believe this centre will benefit local residents and help families like mine feel connected and supported in the area, and I hope the Council will approve this application as it is in the best interests of Worcester road residents.
