DM2025/01591

I have been a Sutton resident for nearly 38 years and have been a school governor at a local school and also on the borough's admissions and exclusions panel.

There has been a great need for a site for the local Muslim community in this area for some time. My family and I have been regular attendees at the events (both social and religious) at St John's Church since the group has been hiring the hall. The ambulance site will provide a much needed venue for community activities. A place where not only religious but social, educational, exercise classes and health and safety needs will be supported. There are very few safe spaces available for the youth and from my many years experience in teaching and youth clubs, I appreciate the importance of providing activities outside of school for their wellbeing. In the same spirit that Mosques opened their doors for Covid vaccinations for the whole community we will provide activities for not only Muslims but the wider community from toddlers groups to senior citizens including coffee morning for the lonely and isolated members of the community.

I was present at the community open session at the ambulance site and understand the reservations of the local residents and the team have fully taken these on board and have found resolutions. The timings of activities/ events will be adjusted so not to coincide with the school traffic. Many of attendees are very local and walk. We are part of the local community and have always endeavoured to maintain good relationships with our neighbours. The new use of the ambulance site will be an asset to the local area.
