Stance: Customer made comments in support of the Planning Application

Comment Reasons:

Comment: I am writing to express my strong support for the planning application for the proposed faith-based community hub.

This centre would provide a safe, welcoming, and inclusive environment that would greatly benefit me and my family, both in terms of our wellbeing and our faith. As a woman, having access to a dedicated community space would allow me to meet like-minded individuals, build supportive friendships, and participate in social and educational activities in a comfortable and respectful setting. It would also offer a much-needed place for worship, reflection, and spiritual growth within our local area.

The proposed hub would play an especially important role in the lives of my children. Access to structured extracurricular activities, including sports and youth programmes, would provide them with positive opportunities to develop confidence, teamwork skills, and discipline. Most importantly, it would offer them a safe and supervised environment to spend their time constructively, rather than simply "hanging around" without purpose.

In addition, the centre would strengthen community cohesion by hosting events such as Eid celebrations, family gatherings, educational workshops, and wider community activities. These events would encourage unity, mutual understanding, and positive engagement among residents.

I firmly believe this community hub would provide lasting social, spiritual, and developmental benefits for many local families, and I respectfully ask that you give favourable consideration to this application.

Yours faithfully,

Shaista Faruqi
