Stance: Customer objects to the Planning Application

Comment Reasons:

Comment: I object to the proposed planning application on the following grounds:

The National Planning Policy Framework (December 2024) requires developments to promote social interaction and healthy communities, and to ensure they do not undermine community cohesion (paras 96 and related). This should be considered. This proposal risks the opposite.

The borough needs neutral, multi-use community spaces (e.g. halls, youth centres, recreational venues) that serve residents of all backgrounds and faiths equally, rather than a specialised facility for one group. Prioritising shared infrastructure would better foster genuine unity.

- The planning proposal will further hugely worsen the already deteriorated parking and traffic situation on daily basis on surrounding roads. Residents in this area already face a tough challenge due to large primary school and ever busy roads that serve the exit from Sutton South side to M25 which are shared by local buses S2 and S4. The new planning proposal will severely accentuate the prevailing traffic, safety, parking and noise situation.

To Summarise, I would kindly request planning team to Reject the new proposed plans of this application for this facility.
