Stance: Customer made comments in support of the Planning Application

Comment Reasons:

Comment: I have been a resident of Fairfax Avenue for many years, and as an older member of the community, I would like to express my support for this proposal.

At this stage of my life, having accessible local spaces where people can come together is incredibly important. It gives me a chance for gentle exercise, health and wellbeing sessions, and simple social interaction can make a meaningful difference to older residents like myself. Many elderly people experience isolation, and a welcoming community centre within walking distance would provide valuable companionship and engagement.

I am also reassured by the thoughtful planning that has gone into the proposal. The inclusion of dedicated parking spaces and cycle racks shows that practical considerations have been taken seriously. This helps ensure that both visitors and neighbours are accommodated responsibly.

I believe the building itself has been designed with sensitivity. It appears modest in scale and in keeping with the surrounding residential properties, which is important to those of us who value the character of our area.

Lastly, I see this centre as a positive and considerate addition to the neighbourhood - one that will support wellbeing, reduce loneliness and strengthen community ties while respecting the local environment. I therefore fully support the application.
