Stance: Customer made comments in support of the Planning Application

Comment Reasons:

Comment: I support the application reference DM2025/01591. I am a local resident and having understood the programs which include health and well being, in addition to added community use and inclusive facilities, I support the application.

The development is modest and will be a needed visual improvement on the current unattractive site. I look forward to be able to visit the site and take up the programs being offered.
