Commenter Type:

Stance: Customer made comments in support of the Planning Application

Comment Reasons:

Comment: I support the application as I will personally find the new proposed building very useful - it's a 10 minute walk from my house so I walk to it to do my prayers . which will hopefully keep me fit as a 65 year old ! I think the community hub will be a great addition to local facilities and I do think involving the wider community is essential . I believe in giving back to the community, having spent my lifetime in public service including as a college governor - we do need to provide some place where young people can go and get healthy - rather than adding another abandoned building to our landscape . Inevitably parking becomes an issue of debate but I must say I have been really impressed with how it has been managed now - with regular patrols by attendants in high vis jackets at busy times - those parking selfishly and illegally are named and shamed . We live in a multi cultural and multi faith country as our King often tells us - and so I find supporting this proposal very straightforward
