Stance: Customer made comments in support of the Planning Application

Comment Reasons:

Comment: I support Planning Application DM2025/01591.

I am a local resident living in Cheam for the last 19 years. I support the application as this offers an ideal location and venue for the local community to meet, gather, socialise and conduct religious activities to improve their faith, moral and health well being.

It will also help keep local people active as we can walk to the premises. The building is modest in scale and in keeping with the local area. Previously as an Ambulance Centre the building would have been far more noisy and disruptive. This will be a low-intensity use compared to alternative developments. There will not be a sudden and huge demand on local facilities like increased school places, increased social services, increased refuse collection nor any other local resources. Parking, if needed, is easy as there are already parking spaces. Local garden and greenery is being maintained. There will be activities and spaces for women, youth, kids and the elderly and vulnerable in our community. Youngsters will have a place to learn, study and improve education. This will prevent them from diverting to other Juvenile anti social activities. There should be no significant impact on local traffic as the users are all living locally anyway. As a long time tax payer and resident in Cheam, I am requesting the Council to approve the application.

Many Thanks
