Comment Reasons:

Comment: I am writing in strong support of this application. As a Muslim, from a Muslim family that has lived in this area for over 40 years, we have not had an Islamic hub of this kind available to attend locally. The establishment of this place of worship would be a significant and much-needed addition to our community.

This space will not only serve spiritual needs but will also provide meaningful social, educational, and wellbeing benefits. The proposed youth programmes and structured activities will offer young people positive engagement, mentorship, and a safe environment. Wellbeing initiatives, educational sessions, women's support groups, and elderly engagement activities will help address isolation and promote mental and social wellbeing.

Importantly, the centre will provide safe spaces for those who may feel lonely or excluded and will actively encourage inter-community interaction. By creating opportunities for collaboration, dialogue, and shared activities, it will enhance community cohesion and strengthen relationships across the wider neighbourhood.

After more than four decades in this area without such a facility, I strongly believe this development will benefit not only Muslim residents but the entire community by fostering collaboration, support, and mutual understanding.
