Address: 16A Benhilton Gardens Sutton SM1 3BS

Comment Details

Commenter Type:

Stance: Customer objects to the Planning Application

Comment Reasons:

Comment:Reasons for objecting:

Inaccurate Representation of Usage: The application suggests that the proposal is simply a relocation of existing activities from Belmont Church. However, this is misleading. Currently, the church is only utilized for Friday afternoon prayers. Because the Islamic faith requires five daily prayers, seven days a week, the transition to a dedicated mosque will significantly increase the frequency and intensity of site usage compared to the current arrangement.

Access Constraints: There are currently only three points of access to the old fire station, which are insufficient to handle the projected increase in traffic and footfall.

Proximity to Avenue School and Local Infrastructure: The site is located near Avenue School, an area that already suffers from severe parking shortages and high traffic congestion. Introducing a full-time place of worship would place an unsustainable "stress" on the local roads. Furthermore, the increased vehicle flow raises significant concerns regarding the safety and security of children in the immediate vicinity. Given these combined factors, the location is not an ideal or safe choice for a mosque.
