Stance: Customer made comments in support of the Planning Application

Comment Reasons:

Comment: I support this application, as a woman I feel this will be a great and safe space for me and my children to contribute to the community. I believe it will provide an area that is open to all religion and faiths that will considerably teach our children about tolerability and diversity.

The centre will also allow us opportunities to host and be part of community events and activities that help welcome women and children feel safe and welcomed in the community.
