Comment Reasons:

Comment: I am writing to support this planning application.

The proposal represents a positive change for the site. Replacing the previous, more intensive use with a smaller community facility will reduce noise and overall activity, making it far more suitable for the surrounding residential area.

The plans also show consideration for local residents, with additional parking and secure cycle storage included. As this is a community-focused facility, many users are likely to walk, which should help limit traffic and minimise impact on nearby roads.

In terms of appearance, the design is appropriate for the area. The scale and layout are proportionate and fit well within the existing streetscape.

Overall, I believe this is a well-considered proposal that will benefit the local community while respecting its surroundings. I respectfully ask the Council to approve the application.
