Commenter Type:

Stance: Customer made comments in support of the Planning Application

Comment Reasons:

Comment: I would like to confirm my strong support for this development. I believe it will provide a great community venue not just for faith based communities, but the broader community.

I have reviewed the plans and spoken to the team leading the efforts. Their plans cover Community space for youth which is much needed in Sutton, there is a real shortage of Youth facilities and this will address a key need.

In addition, the proposed Wellbeing Events, sporting activities, facilitation and organization will deliver much needed services - for the community by the community - these all need organizing and structure, which will be a key aspect of the community center.

In particular, there is an ever growing elderly population and providing safe spaces and facilities for all community members is always positive and uplifting for society as a whole.

I am confident that this center will provide real measurable value to the area and would request your supporting consideration of such an application.

Kind regards, Mr. M Farooq Azami
