Address: 1 Priory Avenue North Cheam SM3 8LU

Comment Details

Commenter Type:

Stance: Customer objects to the Planning Application

Comment Reasons:

Comment: I wish to formally object to the proposed conversion of the former Ambulance Station on Dorset Road into a mosque and community hall.

My concerns are based on material planning considerations as follows:

1. Traffic and Highway Safety

Dorset Road is a narrow residential road that already experiences congestion, particularly during school drop-off and pick-up times for Avenue Primary Academy. The proposal indicates gatherings of up to 250 people, which could generate significant additional vehicle movements and parking demand.

The surrounding roads do not have the capacity to safely accommodate this level of traffic. Increased on-street parking will reduce visibility at junctions and create risks for pedestrians, especially children walking to and from school.

2. Impact on School Safety

With over 1,000 pupils attending the nearby primary school, the area is extremely busy at peak times. Additional event-based traffic will increase the likelihood of dangerous situations, including blocked pavements, restricted sightlines, and vehicles mounting curbs.

I have personally witnessed congestion on Dorset Road during school hours, and adding further

traffic would significantly worsen an already challenging situation.

3. Noise and Disturbance

Late evening events finishing around 11pm would result in noise from people dispersing, car engines, doors slamming, and vehicles circulating in search of parking. This would materially harm the residential amenity of neighbouring homes.

This is a quiet residential area, and the scale of activity proposed is not in keeping with its character.

4. Overdevelopment and Character of the Area

The proposed extensions and increased building height would create a structure that is visually dominant and out of keeping with the surrounding domestic properties. The development represents over-intensification of a constrained site within a residential setting.

For the reasons above, the proposal would result in unacceptable harm to highway safety, residential amenity, and the character of the area. I respectfully request that the Council refuse this application.
