Commenter Type:

Stance: Customer objects to the Planning Application

Comment Reasons:

Comment: I am resident and I strongly object for this plan mainly from road safety and traffic perspective.

This location is already facing loads of traffic issues due to existing Avenue school, Tennis club, bowling club. The application shows 200-300 individuals using the location on Fridays where as the proposed site has only 10 parking space (2 already allocated for Differently abled people). And I am not sure how, from road/traffic safety perspective it's allowed to have 200-300 people in a particular day of the week with Only 8 available parking space. And how conveniently they have counted all the surrounding roads for their use without any consideration of the residents. How could we have peaceful evening when 100+ cars at a time start their engine and make noise between 2200 and 2300 hrs?

Another e.g., on a Friday evening, we residents would invite our friends and family for a evening gathering, where would we find a space for parking when this was conveniently taken by the people visiting the proposed site.

On top this, this location and surrounding has many number of community centres already in place and wondering what is the need for yet another one and what difference it's going to make, other than yet more traffic issues and noise pollution for the residents.

Due to Avenue school, we have been suffering on daily basis with traffic congestion and parking challenges and this new site would make this even worse.

This is not only about cars/four wheelers, during spring/summer, there could more noise and congestions when people visiting the proposed site arrive in two wheelers. Despite the barrier which separates Brasted Close and Dorset Road, we face huge noise and traffic issues when motor bike and scooters violate traffic rule by using the cycle passage and there is no guarantee the visitors to this proposed site would follow any traffic regulation. Our children could play and make use (bike riding) of these roads at all.

Considering all these, from the road safety, traffic congestion, residents livelihood view, I request the Sutton Council Planning team to reject this application.
