Stance: Customer made comments in support of the Planning Application

Comment Reasons:

Comment: I strongly support this proposal to reuse the former ambulance centre.

I live within a few minutes walk of the site, and this new community facility would be a real benefit to local residents. As someone who has recently moved to the area with a young family, having a safe, welcoming space within walking distance would make it much easier to meet others locally and take part in community activities.

I also understand a defibrillator is available on site, which would be a valuable and much needed resource for the neighbourhood.

The current temporary arrangement at St John's Church is not a suitable long term solution, so providing a dedicated, permanent space is important. This is a sensible and positive reuse of an existing building.

The proposal appears in keeping with the character of the area and should have minimal, if any, impact on the streetscape or skyline.
