Stance: Customer made comments in support of the Planning Application

Comment Reasons:

Comment: I strongly support this proposal to reuse the former ambulance centre.

I will be living within a few minutes' walk of the site, and this new community facility would be a real benefit to local residents. As someone who is soon moving to the area with a young family, having a safe and welcoming space nearby would make it much easier to meet others locally, take part in community activities, and build a support network.

As a woman, I also see this as especially valuable having an accessible local space to meet other people and families will help strengthen community connections and wellbeing.

I understand a defibrillator is available on site, which would be a much needed and valuable resource for the neighbourhood.

The current temporary arrangement at St John's Church is not a suitable long-term solution, so a dedicated, permanent space is important. This is a sensible and positive reuse of an existing building.

Finally, the proposal appears in keeping with the character of the area and should have minimal impact on the skyline.
