Stance: Customer made comments in support of the Planning Application

Comment Reasons:

Comment: I am writing as a resident of Heath Drive to express my strong support for the planning application.

As a local resident living close to the proposed site, I have carefully reviewed the details of the application and believe it represents a well-considered, responsible, and beneficial development for the area.

In particular, I welcome the provision of substantial on-site parking, including the 12 standard spaces and dedicated disabled bays. This demonstrates a clear commitment to managing traffic responsibly and minimising any potential impact on surrounding residential streets. Adequate on-site parking is essential for developments of this nature, and the proposal appears to address this appropriately.

I also appreciate the applicant's proactive approach to managing Friday prayer times to avoid overlap with nearby school pick-up periods. This shows a thoughtful and cooperative effort to reduce congestion and disruption at peak times and reflects genuine engagement with local concerns.

The proposed centre will provide a wide range of positive community benefits, including educational programmes, youth activities, wellbeing initiatives, and opportunities for social engagement. Facilities of this kind can play a vital role in strengthening community cohesion, promoting wellbeing, and offering constructive activities for residents of all ages. A structured and managed community space is far preferable to informal or unmanaged gatherings and can

contribute positively to the social fabric of the neighbourhood.

Furthermore, the design of the building appears modest, proportionate, and sympathetic to the character of the surrounding area. Based on the submitted plans, it does not appear to be overbearing or out of keeping with neighbouring properties and should integrate well into the local streetscape.

Importantly, this proposal demonstrates clear efforts to address common planning concerns such as parking, traffic management, accessibility, and neighbourhood impact while delivering meaningful and long-term benefits to the local community.

For these reasons, I believe the application represents a balanced, thoughtful, and community-focused development. I respectfully urge the Council to grant planning permission.
