Stance: Customer made comments in support of the Planning Application

Comment Reasons:

Comment: We are writing as a family from Dorset Road to voice our strong support for planning application DM2025/01591.

Having been long-term residents in the vicinity of the former ambulance station, we have direct experience of its previous 24-hour operation, which entailed constant vehicle movement and activity. We are therefore particularly enthusiastic about the proposition to replace this continuously busy facility with a more modest, community-oriented development.

This change promises a significantly reduced impact on noise and traffic, and we believe it will integrate far more harmoniously with our residential surroundings.

We also commend the inclusion of additional parking in the proposal. This thoughtful provision addresses a practical concern, offering a proactive solution to manage demand and alleviate parking pressures on local roads.

From an aesthetic standpoint, the proposed development strikes us as entirely appropriate for the area. The designs appear well-proportioned and sensitively considered, ensuring the new structure will complement the existing streetscape seamlessly.

In conclusion, we view this application as a genuinely positive step for our neighbourhood. It transitions an intensive operational site into a calm, community-focused asset that genuinely enhances the area's character.

We respectfully urge the Council to grant approval for planning application DM2025/01591.
