Comment Reasons:

Comment: I am writing as a local resident to express my support for planning application DM2025/01591.

As a mother living in the area, I believe the proposed community centre would provide a valuable and much-needed local facility for families. Having a safe, welcoming space within walking distance where children can attend educational programmes and structured activities is a real benefit to the neighbourhood.

I particularly welcome the inclusion of dedicated space and activities for women, including wellbeing and fitness sessions. Accessible facilities that support women's health and social connection are extremely important, especially for those balancing childcare and family responsibilities.

The proposal also includes sensible practical measures such as on-site parking, disabled bays and cycle storage, which demonstrate that the development has been carefully planned. From my own experience in the area, I do not believe the centre will cause significant traffic or disruption. Activities have been operating nearby for several years without noticeable issues, and Friday prayers are staggered to avoid conflict with school pick-up times.

Overall, I feel this represents a positive and well-managed addition to the local area. It supports families, promotes wellbeing and strengthens community ties while remaining appropriate in scale and character for a residential neighbourhood.

I respectfully ask the Council to approve this application.
