Comment Details

Commenter Type:

Stance: Customer objects to the Planning Application

Comment Reasons:

Comment: Summary Objection

1. The area already suffers from heavy congestion due to the nearby primary school, with parents parking across residential roads; any additional visitor traffic will worsen an already unsafe situation.

2. The claim that most attendees will arrive by bicycle is unrealistic, especially for older visitors, meaning cars will inevitably be used.

3. No dedicated parking is provided, so visitors will spill onto surrounding streets, increasing congestion and reducing access for residents.

4. The roads are narrow and not designed for the increased vehicle movements associated with a public gathering space. At the end of Dorset Road there is a block only giving access to emergency vehicles .

5. Noise and disturbance will increase due to regular gatherings, including evenings and weekends, affecting nearby homes.

6. The proposal shifts the area from a residential setting to a more commercial/institutional use, which is unsuitable for this location.

7. Many supporters listed on the application appear to live outside the borough, suggesting the

facility will attract nonlocal users and further increase traffic.
