Comment Reasons:

Comment: Dear Ms Davidson,

I am writing to support Planning Application DM2025/01591 for the Ambulance Station, Dorset Road, Belmont SM2 6JH.

I have lived locally for over 12 years and care deeply about ensuring development strengthens, rather than disrupts, our community. Having reviewed the proposal, I support the change of use to a mixed Class F1 (Place of Worship) and Class F2 (Community Hub) facility, together with the proposed extensions.

The application offers meaningful social value. In particular, the provision of dedicated space and programmes for women, alongside educational activities for children and wider health and wellbeing initiatives, will provide inclusive and supportive facilities that are often limited locally. Spaces that encourage participation, learning and connection are especially important for women and families.

The physical changes proposed are modest and appear in keeping with the surrounding residential area. In my view, the use is relatively low intensity compared with other potential developments. The 12 on-site parking spaces, including 2 disabled bays, along with cycle racks and the retention of greenery, demonstrate a considered and responsible approach to accessibility and sustainability. The staggering of Friday prayers to avoid school pick-up times further reflects sensitivity to local concerns.

Overall, I do not believe the proposal will result in any significant traffic, noise or light impacts, and I respectfully ask that the Council approves the application.

Kind Regards,

Sabina Osmani
