Comment Reasons:

Comment: Dear Sir

I object to the proposed increase in on-street parking linked to the new proposals of the new mosque community hub. The development is expected to add over 70 vehicles, rising to around 150 during overlap times, which is unsafe for these residential roads.

My husband is severely sight impaired and I have mobility problems we are both elderly.

Increased parking blocks visibility, narrows roads and pavements and makes crossing extremely dangerous for us and other vulnerable pedestrians. This is a school area and heavily used by children some of which are very young. All ages would be very vulnerable to these proposals.

Late night vehicle movements and noise from large numbers of people leaving the site will increase safety risks. especially in low light conditions.

The proposal fails to adequately consider the safety and accessibility needs of disabled residents and vulnerable people.

I respectfully urge the planning authority to reconsider this proposal. give proper weight to disability access and children's safety concerns and reject any plans that result in increased parking in the area.

Thank you for taking the time to consider this objection.

Yours faithfully

Christine Godley
