Commenter Type:

Stance: Customer objects to the Planning Application

Comment Reasons:

Comment: I wish to object to planning application DM2025/01591 on the grounds that the proposal would cause unacceptable harm to highway safety, increase parking stress, and negatively affect residential amenity in an already constrained residential area-particularly during school run and evening peak periods.

I am a resident of Sevenoaks Close and regularly experience heavy parking pressure during school drop off and pick up times. Pavements are frequently blocked by vehicles, making it difficult for parents with buggies, elderly residents, and wheelchair users to move safely.

This area is a school run environment with high pedestrian activity, including children. Any additional vehicle movements, drop offs, circulating traffic, and on street parking associated with the proposal will further reduce visibility and increase the risk of accidents involving children and other pedestrians.

Furthermore, the area already benefits from St John's Church, which supports community functions.

There is no demonstrated need for an additional facility of this nature in such a constrained location.

For these reasons, I respectfully request that Sutton Council refuse application DM2025/01591 due to its unacceptable impacts on highway safety, parking, and residential amenity.
