Comment Reasons:

Comment: I am writing to express my support for the planning application DM2025/01591

The new community centre will be great for us as we are walking distance and will be the case for many other people as well. Being located centrally in the community means many people simply can arrive on foot, reducing reliance on cars to get there. The community centre of this nature allows for many important social, educational and wellbeing benefits as it provides a place for the community to get together for worship but also allows for youth activities which helps keep the kids off the streets. It creates opportunities for social cohesion and more importantly reduces isolation which is a silent struggle for many of us within the community. Overall, I believe it supports the local needs and aligns with the purpose of the community-focused development.

I respectfully request that the Sutton Council approves this application
