Comment Reasons:

Comment: I see no reason as to why a place of worship or community hub would be obstructive in anyway in the area. There already are other religious places that have been accepted into the community to provide help support to their respective visitors.

The overblown safety concerns raised by some is an apparent concerted effort on the part of some people acting in bad faith.

The area of planning and development in question has adequate space to facilitate any parking & traffic issues as most will be bypassing the school route anyways. Most people are residents of the area who are likely to carpool or walk to the hub.

Again there is no likelihood of constrained streets and delay in emergency response vehicles as that has never been the case in the area.

Those that are worried about residential peace of mind and noise pollution can be rest assured that hours of operation are in keeping with those concerns in mind if you look at their timings.
