Stance: Customer made comments in support of the Planning Application

Comment Reasons:

Comment: I am writing to express my strong support for this proposed development. I believe it will serve as an important community asset, benefiting not only faith-based groups but the wider Sutton community.

Having reviewed the plans and spoken with the project team, I am satisfied that the proposal has been carefully considered and responds directly to local need. In particular, the provision of dedicated youth space is very welcome. There is a clear shortage of safe, structured facilities for young people in Sutton, and this centre would help address that gap in a constructive and positive way.

The proposed wellbeing activities, sports programmes, and organised community events will also provide accessible services that encourage participation, improve social connection, and support community cohesion. Importantly, these activities will be coordinated and managed, ensuring they are consistent, sustainable, and open to all residents.

The centre would also benefit older residents by offering a safe and welcoming environment that helps reduce isolation and promotes inclusion.

Overall, I am confident this development will deliver meaningful and measurable value to the local area. I respectfully ask that you give the application favourable consideration.
