Comment Reasons:

Comment: I am writing to formally object proposed development (F1 & F2)

While I respect the importance of community and faith-based spaces, I have serious concerns regarding the suitability of this location, particularly due to its close proximity to a large school. The school already experiences significant traffic congestion during drop-off and pick-up hours as well as teachers and few other parents park on surrounding roads (Dorset Road, Holland Avenue and York Road). Adding another high-traffic facility in the immediate vicinity is likely to worsen congestion, increase parking pressure, and create potential safety risks for children and pedestrians.

The area currently has care homes and nurseries, which contribute to its quiet and residential character. The proposed development is likely to increase noise levels, traffic, and activity, thereby significantly altering the peaceful nature of the neighborhood.

I strongly urge the planning authority to carefully reconsider this location and conduct a thorough traffic and safety impact assessment before granting any approval.
