Commenter Type:

Stance: Customer objects to the Planning Application

Comment Reasons:

Comment: As a long standing resident of Belmont I would like to object to the opening of a mosque in the old ambulance station in Belmont for the reasons stated:-

Lack of planning consistency by the London Borough of Sutton for the following reasons:-

- Avenue Road and Dorset Road have a speed limit of 30mph outside Avenue Primary School with over a thousand pupils compared to Thomas Wall which is a 20mph and also restrictions of even passing the school at drop off and pick up times. Do we need a child to be severely injured as a result of poor planning?

- Avenue Road is also a bus route with parking restrictions, which are totally ignored during drop off and pick up times. Many drivers try to undertake a three point turn, using driveways, grass verges or any other reason, rather than drive around the block. This causes lots of congestion and destroys verges and restricts access to drives of local residents.

- the lack of parking spaces for a mosque - which is planned to be open seven days a week, will attract a significant increase in footfall and car traffic to an area which is already congested as a result of issues mentioned above.

- Avenue Road, Dorset Road, York Road and Holland Avenue are residential areas which are already stressed due to poor planning, ignoring increased noise levels, congestion and parking issues already being experienced. If this proposed planning goes ahead, this will only exacerbate the problems locally.

I therefore strongly object to this application going through, and I sincerely hope the council rejects this too.

If not, I suggest the council visit the local area at school times to witness the chaos already on the local area including a busy bus route.
