Comment Reasons:

Comment: I am writing as a local resident to express my support for planning application DM2025/01591

I have lived in this area for more than 10 years and feel strongly about developments that positively contribute to our neighbourhood. I believe this proposal represents a valuable opportunity for the community.

Personally, this new community center would be easily accessible for me, less than a 20 minute walk. This will reduce concerns about parking for many people and encourage more sustainable travel options.

In addition to serving as a place of worship, there are plans to provide health and wellbeing programmes that will benefit the wider local community. These initiatives can help promote social connection, mental wellbeing, and community cohesion.

The proposed educational programmes for children are also particularly important. Providing a safe, structured environment. It is important that we make an effort to create more safe spaces for young people in our area.

For these reasons, I respectfully ask the council to approve the application.
