Comment Reasons:

Comment: I am writing to express my strong support for Planning Application DM2025/01591.

Over the years, my family and I have attended events arranged by BASMA, and we have seen first-hand the positive impact these activities have on families and the wider community.

The proposed centre would provide a stable and dedicated venue for programmes that are already delivering value locally. In particular, I greatly value the focus on health and wellbeing initiatives, children's education, and women's health programmes.

These services are essential for supporting families like mine and helping to build a healthier, more connected community.

Access to educational support for children, wellbeing sessions, and community engagement activities creates opportunities for families to grow together in a safe and structured environment.

For young parents especially, having a local centre that offers guidance, support networks, and activities for children is incredibly important.

I believe this development represents a positive investment in community infrastructure and long-term wellbeing. It will strengthen local support systems and provide a welcoming space for residents of all ages.

I respectfully ask the Council to approve Planning Application
