Dear Madam,

Re: Letter of Support for the Proposed Community Centre and Place of Worship

I am writing as a resident of 29 Brandy Way, SM2 6SE, to express my strong support for the proposed community centre and place of worship.

I work in the administration team at Epsom and St Helier University Hospitals NHS Trust and understand, both professionally and personally, the importance of accessible community services that promote health and wellbeing. As a mother with a young family, I particularly value the focus on wellbeing initiatives, especially those designed for women and children.

The proposed programmes - including health and wellbeing sessions, educational support for children, and structured youth activities - will provide meaningful benefits to local families.

Dedicated opportunities for women's wellbeing are especially important, as they create safe and supportive spaces that encourage participation, confidence and improved physical and mental health.

I also welcome the range of community programmes being offered, which demonstrate that the centre is intended to serve a broad section of the local population and function as a genuine community hub.

In addition, I believe the proposed transport plan has been thoughtfully prepared. The consideration given to parking provision, scheduling of activities and encouragement of sustainable travel reflects a responsible and proactive approach to addressing local concerns. Overall, I believe this development will bring positive social, educational and wellbeing benefits to the area while being carefully planned and managed. I fully support the application and hope it receives approval.

Yours faithfully,

Israa Rahman
