Commenter Type:

Stance: Customer made comments in support of the Planning Application

Comment Reasons:

Comment: In support of my stance for this application, I request you to consider the following:

This facility would be a community centre providing culturally appropriate services to women, the elderly and youth; there are very limited such provisions in the local area. This would also provide a managed place of worship for local residents, reducing the need to travel over longer distances and thereby reducing traffic and congestion on roads.

All round, this is an excellent idea to establish this centre at this location, I whole heartedly support this application.

Many thanks and regards,
