Comment: Letter of Support

I have lived in the Borough covering Cheam Sutton and Belmont for many years and love the vibrant mix of its community, the same community in which I have been proud to bring up my children.

I'm confident that the local Muslim community that I have come to know well, will always act responsibly in running the building as a place of worship but also in serving the wider local community of all beliefs, in various charitable ways, via its planned attached community hall.

I believe this will have minimal impact on local traffic flow as most visitors will be commuting by foot and thereby also maintaining a low Carbon Footprint.

There is undoubtedly a strong need for a place of worship in this ideal central location for use by local professionals, hardworking residents and their families, young and old, to practice their faith in a quiet peaceful environment.

Finally, my vision for the building is as a flagship centre of excellence with good community relations and seeing it support and maintain the good name of the London Borough of Sutton.

I support this change of use to a Place of Worship wholeheartedly.
