Address: 9 Holland Avenue Cheam SM2 6HW

Comment Details

Commenter Type:

Stance: Customer made comments in support of the Planning Application

Comment Reasons:

Comment: I am writing as a local resident to support application DM2025/01591 based on the following material planning considerations:

- Community Infrastructure: The proposal aligns with Sutton's Local Plan by providing essential community facilities, including educational programs and dedicated space for women's health.
- Design & Character: The building is modest in scale, maintains existing greenery, and is sympathetic to the local residential character.
- Highways & Sustainability: With 12 on-site spaces and 2 disabled bays, parking is sufficient. The commitment to staggered Friday prayer times strategically prevents conflict with school pick-up hours and protects the flow of the public highway.
- Residential Amenity: This is a low-intensity use that, through professional management, will not result in adverse noise, light, or traffic impacts on neighbors.

This development represents a sustainable use of land that serves the public interest. I respectfully urge the Council to approve the application.
