Stance: Customer made comments in support of the Planning Application

Comment Reasons:

Comment: BASMA building project is essential for serving the spiritual needs of local community. It will fill the void for local residents (including children, young people and families) who have to travel a distance otherwise to observe essential elements of their faith which is protected by law. I am highly supportive of the proposed application for new extension to accommodate place of worship and community hub (used for multipurpose, education, health awareness programs and small community gatherings).
